

ALOVA™ ERGONOMIC AND CURVED CUSHIONS

VISCOELASTIC MOULDED FOAM CUSHION

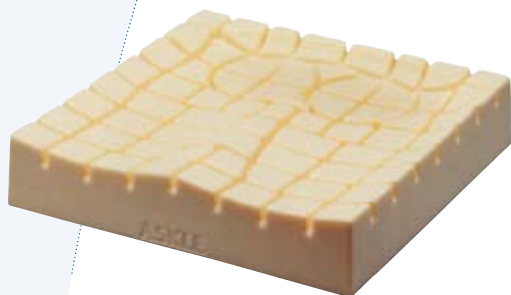

For patients up to 120kg

- **Efficiency:** the ALOVA viscoelastic foam allows immersion of the patients body into the cushion, thus improving pressure distribution and reducing high pressure points.
- **Safety:** supplied cover with anti-slip base.
- **Ergonomics:** multiple sizes available, cover fitted with grab handle.
- **Comfort:** supplied with breathable Promust PU HD cover.

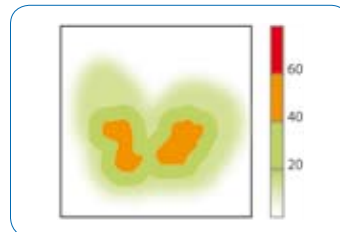

ALOVA™ ERGONOMIC

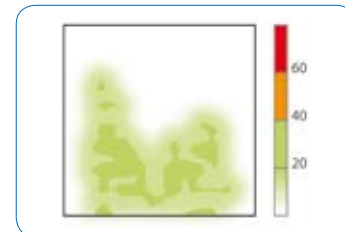

- The flexible blocks follow the patients movement and help with the circulation of air.
- One size : 43 x 43 x 9cm.
- Improved thermoregulation thanks to the vapour permeable cover and air circulation around the foam blocks.
- Reduction of pressure points by immersion into the ALOVA foam.

Pressure Distribution for a patient of 172cm and 75kg

Polyurethane gel cushion

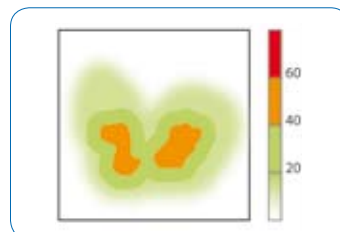

ALOVA ergonomic cushion

ALOVA™ CURVED

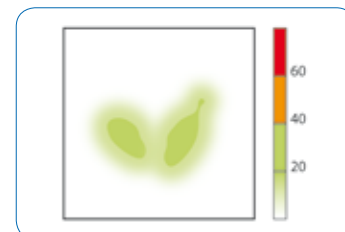

- Ischiatic contours positioned at the back of the cushion.
- Multiple sizes available adapted to the patients weight.
- Pelvic support available, to ease use in a wheelchair, or to help patients with problems of stability.
- 5 width sizes available.
- Cover compatible with normal hospital detergents and disinfectants.
- Integrated carry handle.
- Cushion cover has anti-slip base.

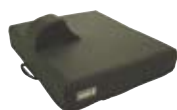

Pressure Distribution for a patient of 172cm and 75kg

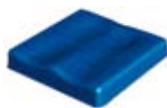

Polyurethane gel cushion

ALOVA curved cushion

Available with pelvic support to help patients with stability problems.

"Dual Membrane" option available – seamless – impermeable to liquids (please see DM mattresses page).
