QUALITY FOR LIFE

## Even more features! **B500**

The B500 has always been great, and now it offers even more.

Highlights include the Enable40 Control, an LCD display with large symbols for easy monitoring of operating modes, a choice of modern colors, and an updated rim design. The standard version of the B500 is preconfigured for easy accommodation of add-on options such as seat tilt up to 20 degrees, back angle adjustment and lights.

The B500 has always been great, and now it offers even more.
