Seat Height Options

Using the table below, indicate desired seat height:
13" ___ 14" ___ 15" ___ 16" ___ 17" ___ 18" ___ 19" ___ 20" ___

All dimensions are approximate.

Note:

The Narrow Fuze T20 is recommended only when overall width is a concern.

The overall width is 2" narrower overall than the Standard Fuze T20.

Some wheel and seat height combinations offer less than 20° tilt, but all offer a minimum of 12° tilt.

	T20 Standard						T20 Narrow

Footnotes

- 7** Pneumatic tires may result in a finished seat height 1/2" higher than stated.
- 8** 20", 22" or 24" rear wheels only
- 9** Requires a 4 - 6 week lead time.
- 10** Required safety option.
- 11** Not compatible with back upholstery.
- 12** Not compatible with Cane Handle back.
- 13** Not compatible with Push Bar back.
- 14** Back height measured from seat pan to top of upholstery.
- 15** Requires solid back support for mounting.
- 16** Black only.
- 17** Available with Adjustable Angle Footplates only. Not available with 8" casters.
- 18** Not compatible with Angle/Height Adjustable Push Bar.
- 19** Compatible only with composite and adjustable angle footplates.
- 20** Not compatible with 90° front rigging.
- 21** Self Tilt is an option that may not be workable for all users. Self Tilt requires some upper body strength and functional operation depends on many specifications such as seat depth, back angle, user weight and user ability.
